

CALL FOR PAPERS

The conference “Riscritture agiografiche. La costruzione della santità regale in Scandinavia - Hagiographic rewritings. The construction of royal sanctity in Scandinavia”, which will be held at Sapienza University of Rome, focuses on the development of hagiography both in Latin and vernacular works in medieval Scandinavia after the Conversion to the new faith and the emerging of Christian monarchies. In particular, it aims at highlighting the links between kingship and sanctity also in a comparative view with the saintly kings of the European tradition. The conference is organised by the Chair of Germanic Philology under the auspices of the Department of Storia, Culture, Religioni and the patronage of AISSCA - Associazione italiana per lo studio della santità, dei culti e dell'agiografia. Scholars, interested in participating to the conference, may send their proposals (title and abstract of about 2,000 characters, including spaces) and a CV by June 15, 2018, to Francesco D'Angelo (francesco.dangelo1@uniroma1.it) via email attachment. Languages of the conference: Italian and English.
